* **SingleSensor** digital imaging technology is a Colortrac invention that combines the best features of CIS and CCD imaging technology in a single line array. Very compact. Virtually stitch-free user maintenance. Avoids front/back stitch errors found commonly on staggered CIS array designs.

SmartLF Gx+ T56

Full color Graphics & Technical Imaging scanner for those extra wide color documents. Includes SmartWorks EZ Touch software.

CCD · 56 inch wide · 600 dpi optical · 2400 dpi max · LED instant on · GIGABIT network ready +USB2

SmartLF Gx+ 42

A0 / E-size Full color Graphics & Technical Imaging scanner. Includes SmartWorks EZ Touch software.

BERTL OUTSTANDING ★★★★½ SmartLF Gx 42 Wide-Format Imaging Readers' Choice Top Product 2009

CCD · 42 inch wide · 1200 dpi optical · 2400 dpi max · LED instant on · GIGABIT network ready +USB2

Colortrac SmartLF wide format scanners and universal copier systems

- **Sharp, high definition** images and high fidelity color reproduction
- **Scan once** workflow with 'right first time' productivity
- **Choice** of instant-on SingleSensor or CCD for best fit to your application
- **Affordable prices** for exceptional value for money

SmartLF SC 25

A1 / D-size Technical Imaging scanner. Includes SmartWorks EZ Touch software.

Single Sensor · 25 inch wide · 1200 dpi optical · 2400 dpi max · LED instant on · SuperSpeed USB3

SmartLF SC 36

A0 / E-size Technical Imaging scanner. Includes SmartWorks EZ Touch software.

Single Sensor · 36 inch wide · 1200 dpi optical · 2400 dpi max · LED instant on · SuperSpeed USB3

SmartLF SC 42

A0 / E-size Technical & Graphics Imaging scanner. Includes SmartWorks EZ Touch software.

Single Sensor · 42 inch wide · 1200 dpi optical · 2400 dpi max · LED instant on · SuperSpeed USB3

Adjustable Repro Stand
SmartLF SCAN & COPY Station

A versatile color system for capturing, sharing and reproducing documents to networked digital archives, workstations and printers.

Professional SmartLF MFP Systems

Compact, multi-function wide format Scan, Copy, Print with simple one-touch controls. Combines any SmartLF scanner with choice from many large format printers

Monochrome

SingleSensor is optimized for technical & full color graphics imaging combining the best features of CCD & CIS

CCD is optimized for technical & full color graphic arts imaging of mounted, inflexible originals up to 0.8 inches (20mm) thickness

Full Color

Mono AEC & CAD · **Grayscale / Newsprint** · **Blueprints** · **Limited Color AEC and CAD Documents** · **GIS / Maps** · **Photos and Graphic Arts**

INNOVATION IN WIDE FORMAT SCANNERS AND SOFTWARE

PRODUCT	WHAT IT DOES	APPLICATIONS	KEY PRODUCT FEATURES
SmartWorks EZ Touch	SmartWorks EZ Touch is a simple application designed for fingertip operation by non-specialist users. Use either keyboard, mouse or touch-screen modes to provide the entire basic scan to file and scan to copy functionality you need. SmartWorks EZ software saves your scanned documents as PDF, TIFF or JPG files individually or as a batch, and makes document copies to any printer through standard Windows printer drivers.	• AEC and CAD • B/W and color drawings • GIS B/W and color maps • In-house graphics • Data capture	• Supplied with every SmartLF scanner • Easy to understand & operate • Touch screen compatible • Copy to any Windows™ Printer • Save to JPG, PNG, TIFF/TIFFG4 & PDF • Work in batch scan or copy modes • Scanner Start / Stop controls • Makes non-specialist users productive • Available in 11 languages
SmartWorks EZ Touch Plus	SmartWorks EZ Touch Plus adds more fingertip capability to your standard SmartLF scanning software. With all the features of SmartWorks EZ Touch and more, this software is the natural for those wishing to provide a more professional approach to their image scanning. 	• AEC and CAD • B/W and color drawings • GIS B/W and color maps • In-house graphics • Data capture	**Program Function** / **EZ Touch** / **EZ Touch Plus** Copy to printer ● ● Scan to file ● ● Print from file ● ● Select Document Filter ● ● Adjust Document Filter ● Speed Control ● ● Scan to USB Stick ● ● Disable Scan to USB Stick ● White Point Adjust ● Black Point Adjust ● Manual Skew or De-skew ● Brightness Adjust ● ● Image Crop ● ● Rotate Image ● Sharpen Image ● Invert Image ● Mirror Image ● Black and White Threshold ● ● Preview ● ● Batch ● ●
SmartWorks Pro 	SmartWorks Pro – the scanning solution for the professional user. Using a Mouse or Touch Screen enabled displays; the intuitive Graphical User Interface guides you quickly through the Scan-once workflow, making rapid changes to the image quality if required. Use the 10 Preset Filters for quick pre-selection of your key scanning parameters. Intelligent Adaptive Thresholding allows the automatic removal of unwanted background to provide clean copies and the fully integrated ICC color management in the viewer provides accurate representation of scanned and printed output. SmartWorks Pro is a cost option for any SmartLF scanner and is available in 3 variants: Scan - scan only Copier - copying direct to a printer only. Can be used in an MFP configuration with your large format printer. Scan & Copy - scan to file and print a copy simultaneously	• AEC and CAD • B/W and color drawings • GIS B/W and color maps • In-house graphics • Data capture • Repro, Graphics & Quick Print	• Available in three applications, Scan, Copier or Scan & Copy • Either Keyboard, Mouse or Touch Screen compatible operation • Scan Once, Edit Many times – no re-scanning required • Optimised Windows and internal printer driver support • Efficient high speed viewer for “on-the-fly” image editing • Intelligent Adaptive Thresholding (IAT) • Image restoration • Total color management • Work in batch scan or copy modes • Save to JPG, PNG, TIFF, BMP, PCX & PDF • Fully indexed ”Help” file in 10 languages • Create Multi-page Documents in JPEG, TIFF or PDF
SmartLF ISIS™ 	The ISIS™ driver seamlessly connects the complete range of Colortrac SmartLF scanners directly with your EDM application. It works directly with ISIS compliant EDM software products like KOFAX, Ascent Capture, Captiva Capture, QuickScan Pro, InputAccel, Laserfiche Rio etc. ISIS driver included Free of Charge with every SC Series Scanner model - (Option for SmartLF Gx+ 28 and Gx+ 42)	• Data capture in high volume environments	• It’s one of the only large format ISIS drivers. • Supports your EDM applications’ familiar ISIS interface. • ISIS guarantee of data compatibility.
