<sup>1</sup> Compared to other 24-inch HP DesignJet T-series printers.

<sup>2</sup> PDF files only available with PostScript® (PS) accessory (optional accessory to be purchased separately) or with the PostScript® version of the printer.

<sup>3</sup> Local printing requires mobile device and printer to be on the same network (usually Wi-Fi access points bridge wireless to wired connections) or have a direct wireless connection. Wireless performance is dependent on physical environment and distance from access point. Wireless operations are compatible with 2.4 GHz operations only. Remote printing requires an Internet connection to an HP web-connected printer. Wireless broadband use requires separately purchased service contract for mobile devices. Check with service provider for coverage and availability in your area. See <http://www.hp.com/go/designjetmobility> for more details.
