HP Designjet ePrint & Share¹

Free web service that makes it easy to access and print large-format documents using tablets, smartphones, laptops, or your touchscreen printer.

Office - CAD & GIS

For AEC, GIS, and MCAD professional users and workgroups who want to print maps, technical drawings, posters, and renderings with precise, accurate line quality and crisp text.

Overview:

Newly designed, web-connected eMultifunction printer with A0/E-size print, scan, and copy capabilities.

Product features:

- Eliminate any output clutter—get flat, collated prints thanks to the integrated output stacker
- Load two paper rolls effortlessly—even when seated—with front loading and automatic paper-roll alignment
- Original HP inks deliver dark blacks and true neutral grays
- Access and print projects when you're out of the office, using HP Designjet ePrint & Share¹

Production

For print service providers, repro houses, and quick printers who want to print anything from simple CAD drawings to complex color documents with high speed and outstanding image quality.

Overview:

A high-speed printer with low cost of ownership that increases productivity, and creates high-quality prints on a variety of media. HP Designjet SmartStream offers correct PDF management and true print previews through HP Crystal Preview Technology.

Product features:

- Accelerate your production with high-speed color printing that delivers up to four A1 pages per minute
- Boost production, manage PDFs, and cut job preparation time by up to 50% with HP Designjet SmartStream¹⁴
- Print up to 600 m (1,968 ft) uninterrupted with high-capacity HP ink cartridges and three heavy rolls

Reasons to buy

- A full-color solution for high-volume printing
- Versatile printing backed by proven HP technology
- Low-cost operation and full workflow control

Overview:

Improve productivity with the fastest MFP on the market¹⁵ for all your black-and-white and color needs. Enjoy unattended operation at costs rivaling similar black-and-white LED MFPs.¹⁶ This MFP is built for rigorous IT demands and top security.

Product features:

- Print A1 pages in 21 seconds with dark blacks, neutral grays, and vivid colors⁶
- Operate unattended thanks to two heavy rolls of up to 200 m and a total ink capacity of 1,800 ml
- Protect and manage confidential jobs securely—retrieve documents at the printer with a personal PIN
- Minimize device-management tasks and costs, using the HP Designjet Universal Print Driver

Reasons to buy

- All your workflow needs in a high-productivity MFP
- A production printer for unattended, low-cost use
- Built for rigorous IT demands and top security

Overview:

Turn orders in record time with the fastest 60-inch production printer for graphics.¹⁷ Offer exceptional color and black-and-white prints on many substrates. Count on advanced color management features backed by HP reliability and easy operation.

Product features:

- Print as fast as 140 m²/hr (1500 ft²/hr) in fast mode¹⁸ and 19.7 m²/hr (212 ft²/hr) in high-quality mode
- Offer your customers durable prints that last up to 200 years, using HP Vivid Photo Inks¹⁹
- Confidently print unattended thanks to heavy media rolls, 775-ml HP ink cartridges, and a built-in take-up reel
- Print exceptional colors—HP Vivid Photo Inks with a chromatic red offer a wide color gamut and uniform gloss.
- Create custom ICC profiles and achieve color accuracy with the embedded spectrophotometer and color center²⁰

Reasons to buy

- Designed for speed and productivity
- Unrivaled color and black-and-white image quality
- Advanced color management backed by HP reliability

Overview:

No need to make trade offs with this, the fastest printer in its class.²² The heavy-duty HP Designjet Z6200 Photo Production Printer—a workhorse in disguise—enables you to offer outstanding photo image quality. Become a trusted partner with HP technologies.

Product features:

- Turn around orders in record time with print speeds up to 113 m²/hr (1225 ft²/hr)²³
- Print at top speeds and still see high-quality results thanks to the HP Optical Media Advance Sensor (OMAS)
- Create unique black-and-white prints—three shades of black HP inks produce outstanding optical density and smooth transitions
- Provide extraordinary display permanence—durable prints last up to 200 years¹⁹

Reasons to buy

- Designed for speed and productivity
- Unrivaled image quality
- Advanced color management backed by HP reliability

Overview:

The most productive technical printing software designed for highly demanding environments that offers complete PDF management, creates accurate and error-free printouts, and reduces preparation time by up to 50% on complex jobs.¹⁴

Product features:

- Ensure files are produced reliably with PDF processing powered by the Adobe PDF Print Engine 3²⁴
- Help increase your productivity with high-speed rendering of technical drawings, maps, and complex PDF files
- Rely on the automatic detection of potential issues so you can manage them accordingly before you print
- Fully manage your printing workflow from one single-screen view that provides all information at a glance
- Easily prepare and send jobs to all connected HP Designjet production printers in your fleet

HP Designjet SmartStream

Professional software that cuts job preparation time by up to 50%¹⁴

Supported file types

PDF, TIFF, JPEG, and HP-GL/2

Supported HP printers

HP Designjet T7200 Production Printer

HP Designjet T7100 Printer (excluding the HP Designjet T7100 Monochrome Printer)

HP Designjet T3500 Production eMFP

HP Designjet Z6200 Photo Production Printer

HP Designjet Z6800 Photo Production Printer

Note: HP Designjet SmartStream only supports PostScript printers. If your printer requires an accessory to handle PostScript, you must install the accessory to use the printer with HP Designjet SmartStream. For further up-to-date information, see hp.com/go/Designjetsmartstream.

Number of HP printers supported

Up to 10

Accessories supported:

CQ742B HP Designjet 110V Stacker

CQ742A HP Designjet 220V Stacker

GERA—Butterfly Extra II Folder

es-te - estefold 4211 HP

Scanning integration

HP Designjet T3500 Production eMFP integrated scanner

HP Designjet HD Pro Scanner (through hot folder)

Computer hardware and software

Intel Core i3 2.4 GHz with 4 virtual cores/threads

4 GB of RAM

3.5 GB of free space on hard disk, plus 100 MB for each additional printer added

Screen resolution of 1280 x 1024 pixels, tuned or calibrated to sRGB for optimal HP Crystal Preview performance

Ethernet, IPv4, 100 Mb/s

Microsoft Windows 7 or 8 (32- or 64-bit)

Warranty service

90-day warranty

Reasons to buy

- True PDF management to boost productivity
- Cut job preparation time by up to half¹⁷
- Gain total control of your technical printing workflow

HP Designjet scanners

Overview:

Simplify in-house scanning, copying, and image enhancement of artwork, maps, and technical drawings in color and black-and-white. Easily integrate with HP Designjet printers for a multifunction system. Finish work fast at the large touchscreen.

Product features:

- Reproduce colors with excellent accuracy thanks to CCD technology that ensures high-quality color copying
- Create large-format color and black-and-white scans up to 42-inches (106.7-cm) wide from thick or rigid media
- Scan fast—up to 6 inches (15 cm) per second in color and 13 inches (33 cm) per second in black-and-white²⁵
- Work comfortably thanks to a 15.6-inch (39.6-cm) color touchscreen and the three-level adjustable legs

Reasons to buy

- Excellent image reproduction with CCD technology
- A fast HD scanner designed to streamline workflows
- Scan support customized for HP Designjet printers

HP Designjet HD Pro Scanner

High-definition scanner for excellent color accuracy and high productivity

Vertical markets

Customer profile:

- Architecture studios
- MEP (Mechanical, Electrical, and Plumbing) engineering teams
- Construction—general contracting departments and trade subcontractors and suppliers
- Topography studios
- Public works departments
- Property management/real estate agencies

Printing applications:

- Site plans
- Elevations
- Renderings and presentations
- Project presentation panels
- Tender documents
- Black-and-white line drawings
- Color drawings
- Schematics
- GIS maps

Printing needs met:

- Excellent line quality
- Consistent and accurate color
- Digital archiving, printing, and copying
- Fast, unattended printing
- Ease of use
- High productivity
- Economical
- Low cost per copy
- Web connectivity

Architecture, Engineering, and Construction

Print large-format drawings, schematics, renderings, and presentations with great ease, speed, quality, and low running costs. HP Designjet printers—they help build and grow business.

**Recommended hardware:**

HP Designjet T3500 Production eMFP, HP Designjet T2500 eMultifunction Printer, HP Designjet T1500 ePrinter, HP Designjet T1300 PostScript® ePrinter, HP Designjet T920 ePrinter, HP Designjet T795 ePrinter, HP Designjet T790 ePrinter, HP Designjet T520 ePrinter, HP Designjet T120 ePrinter, HP Designjet SD Pro Scanner

Customer profile:

- Mechanical CAD software users
- Industrial product and packaging design, manufacturing, and engineering departments
- General equipment design and manufacturing
- Medical and scientific equipment design, and manufacturing
- Automotive and transportation design, and manufacturing departments
- Aerospace design, engineering, and manufacturing departments
- Ship building design, engineering, and manufacturing departments

Printing applications:

- Product and piece detailed plans
- 3D exploded view drawings and assembly plans
- 2D and 3D mechanical drafts and detail views
- Renderings
- Project presentations
- Digital archiving
- Network utility maps

Printing needs met:

- High productivity, low cost per copy
- Real-time project delivery
- Grayscale and color line accuracy and definition
- Consistent color
- IT integration to CAD environments
- Large memory to process complex files
- Unattended intuitive printing
- Web connectivity

Manufacturing, Automotive, and Transportation

Print big, so even the smallest details get noticed. Produce large-format plans, drawings, renderings, and more—easily, quickly, and with clear and vibrant quality.

**Recommended hardware:**

HP Designjet T7200 Production Printer, HP Designjet T3500 Production eMFP, HP Designjet T2500 eMultifunction Printer, HP Designjet T1500 ePrinter, HP Designjet T1300 PostScript® ePrinter, HP Designjet T920 ePrinter, HP Designjet T795 ePrinter, HP Designjet T790 ePrinter, HP Designjet SD Pro Scanner

Customer profile:

- Geographical data suppliers
- Commercial cartography services
- Environmental and conservation companies
- Oil & gas exploration companies
- Utilities companies (electricity, water and wastewater, gas distribution, telecommunication, etc.)

Printing applications:

- Civil engineering and construction documents
- Satellite and aerial photos
- Orthophotos
- Maps
- Natural resources and topology plans
- Radiation diagrams

Printing needs met:

- Digital archiving, printing, and copying
- Consistent and accurate color
- Ease of use
- Excellent image and line quality
- Fast, unattended printing
- High productivity, low cost
- Reliable colors
- Wide selection of media

Infrastructure, Mapping, and GIS

Produce drawings, satellite and aerial photos, maps, and more that communicate clearly with excellent image and line quality. HP Designjet printers—see the big picture and everything in between.

**Recommended hardware:**

HP Designjet Z6800 Photo Production Printer, HP Designjet Z6600 Production Printer, HP Designjet Z6200 Photo Production Printer, HP Designjet Z5400 PostScript® ePrinter, HP Designjet T7200 Production Printer, HP Designjet T3500 Production eMFP, HP Designjet T2500 eMultifunction Printer, HP Designjet T1500 ePrinter, HP Designjet T1300 PostScript® ePrinter, HP Designjet T920 ePrinter, HP Designjet T795 ePrinter, HP Designjet T520 ePrinter, HP Designjet HD Pro Scanner, HP Designjet SD Pro Scanner

Customer profile:

- SME businesses
- Corporate businesses
- Multinational corporations
- Banking institutions
- Associations
- Public institutions
- Government

Printing applications:

- Engineering documents
- Presentation panels
- Project schedules
- 3D prototypes

Printing needs met:

- Ease of use
- Quick ROI
- Educational support materials
- Facilities management diagrams
- High productivity, low cost per copy
- Professional presentations
- Real-time project delivery
- Digital archiving, scanning, and copying

Public Sector and Corporate

Cope with the most demanding printing needs with HP Designjet large-format printing. From simple CAD drawings to complex color documents, high-speed HP Designjet printers deliver high-quality output and integrate easily into your IT infrastructure, taking the pressure off—big time.

**Recommended hardware:**

HP Designjet T7200 Production Printer, HP Designjet T3500 Production eMFP, HP Designjet T2500 eMultifunction Printer, HP Designjet T1500 ePrinter, HP Designjet T920 ePrinter, HP Designjet T795 ePrinter, HP Designjet T790 ePrinter, HP Designjet HD Pro Scanner, HP Designjet SD Pro Scanner

Customer profile:

- Large quick printers, sign shops, and copy shops
- Small PSPs
- Medium and large PSPs

Printing applications:

- POP/POS
- Light boxes
- Color proofing
- Canvas, decorative vinyls, and other indoor decoration applications
- Indoor exhibition and event banners and applications
- In-store signage for retail
- Fine art gallery-quality and canvas

Printing needs met:

- Color accuracy
- Quick ROI
- Faster turnaround times
- High quality at production speeds
- Media versatility
- Easy maintenance
- Ideal for indoor environments like education, hospitality, health care, restaurants, and home

Print Service Providers

Be ready to meet any customer demand with large-format HP Designjet printers optimized for production environments. With fast speeds and exceptional print quality you can respond quickly no matter the job, providing opportunity for increased revenues and margins.

**Recommended hardware:**

HP Designjet Z6800 Photo Production Printer, HP Designjet Z6600 Production Printer, HP Designjet Z6200 Photo Production Printer, HP Designjet HD Pro Scanner, HP Designjet SD Pro Scanner

Customer profile:

- Architecture, engineering, and construction companies
- GIS
- Infrastructure planning and public sector enterprises
- MCAD
- Architecture and engineering students, and education institutions

Printing applications:

- Black-and-white and color line drawings
- AEC sets of project and construction plans
- CAD drawings
- Project presentation panels
- Renderings and presentations
- Project presentation panels
- CAD drawings

Printing needs met:

- Large memory capacity for printing sets of plans in high-volumes both quickly and unattended
- Faster turnaround times
- Full solution integration with folder, stacker, scanner, and software
- Low-cost production
- Quick ROI
- IT integration
- Web connectivity to attend to and deliver remote jobs
- Print multiple jobs on a variety of media types and sizes with two (or three) rolls and smart switching

Repro Houses

Print high-quality color plans and renderings at a low cost. Enjoy high-speed unattended printing and offer more application options to your customers.

**Recommended hardware:**

HP Designjet Z6200 Photo Production Printer, HP Designjet Z5400 PostScript® ePrinter, HP Designjet Z5200 Photo Printer, HP Designjet T7200 Production Printer, HP Designjet T2500 eMultifunction Printer, HP Designjet T1500 ePrinter, HP Designjet HD Pro Scanner, HP Designjet SD Pro Scanner

Customer profile:

- On-demand miscellaneous jobs
- Local business and retailers applications, pricing, and communications
- Walk-in non-professional photography and seasonal decoration requests (posters, banners, small signage)

Printing applications:

- On-demand miscellaneous jobs
- Posters
- Backlit prints
- Photos
- Canvas and home décor applications
- Business POP and retail applications
- Banners
- Small signage
- Pricing signs and menus

Printing needs met:

- Wide variety of substrates available
- Consistent color reproduction
- Low cost per copy
- Longevity
- Ease of use
- Fast turnaround
- Quality print

Quick Printers

Do and offer more with HP large-format printing solutions that are easy, flexible, fast, cost-effective, and—best of all—big. They also deliver stunning results that can keep your customers coming back for more.

**Recommended hardware:**

HP Designjet Z6200 Photo Production Printer, HP Designjet Z5400 PostScript® ePrinter, HP Designjet Z5200 Photo Printer, HP Designjet T3500 Production eMFP, HP Designjet T2500 eMultifunction Printer, HP Designjet T1500 ePrinter, HP Designjet SD Pro Scanner

Customer profile:

- Graphic design studios
- Advertising and marketing agencies and departments

Printing applications:

- Project bids
- Concept development
- Visual presentation
- Design competitions and mockups
- Final presentations
- Digital concept proofing
- Posters

Printing needs met:

- Ease of use with graphic software applications
- Mac compatibility
- Image quality
- Color accuracy and management
- Media flexibility
- Fast turnaround
- Low-risk investment
- Low cost per copy

Graphic Design Studios

Show off your digital design with large-format proofs and presentations that mirror the image on your screen. HP Designjet printers—pushing the limits of design.

**Recommended hardware:**

HP Designjet Z6200 Photo Production Printer, HP Designjet Z5400 PostScript® ePrinter, HP Designjet Z5200 Photo Printer, HP Designjet Z3200 Photo Printer, HP Designjet Z2100 Photo Printer, HP Designjet HD Pro Scanner

Customer profile:

- Social, wedding, and portrait photographers
- Commercial photographers
- Fine art photographers

Printing applications:

- Photo printing
- Proofing
- Portfolio

Printing needs met:

- Enables adoption of digital technology
- Flexibility for different workflows (portfolio, final print, and proofing)
- Fast turnaround
- Photo quality (brilliance, saturation, and sharpness)
- Longevity
- Color fidelity
- Rich blacks and neutral grays
- Ease of use
- RGC, CMYK emulations
- Color consistency
- PANTONE® emulation

Professional Photography

Bring your vision to life with large-format photographs and displays. HP Designjet printers make it easy to share and promote your work—with quality and accuracy that remains true to your vision.

**Recommended hardware:**

HP Designjet Z6200 Photo Production Printer, HP Designjet Z3200 Photo Printer, HP Designjet Z2100 Photo Printer, HP Designjet HD Pro Scanner

Customer profile:

- Artists
- Photographers
- Fine art reproduction
- Museum shops
- Graphic designers
- Interior designers

Printing applications:

- Exhibition prints for museums and art galleries
- Canvases
- Portfolio work
- Reproduction
- Design competitions
- Posters and display
- Giclée

Printing needs met:

- Outstanding quality
- Color accuracy across printers and across lighting conditions
- Faithful reproduction
- Wide color gamut
- Grainless pale and light tones
- Rich black and neutral grays
- Longevity
- Ease of use with graphic software applications
- Mac compatibility
- Media flexibility
- Low cost per copy

Fine Art

Produce fine art prints and reproductions that demonstrate strict color accuracy and very high quality. HP Designjet printers—because artistic integrity is a big deal.

Recommended hardware:

HP Designjet Z6200 Photo Production Printer, HP Designjet Z3200 Photo Printer, HP Designjet Z2100 Photo Printer, HP Designjet HD Pro Scanner

Customer profile:

- Small and medium local businesses and shops
- Large department stores
- Hypermarkets and supermarkets
- Furniture and do-it-yourself stores
- Clothing, furniture, and grocery stores
- Garage forecourts
- Garden centers
- Restaurants and pubs

Printing applications:

- POP/POS
- Decorative graphics
- Price signs
- Sales and promotions
- Information signs
- Window and door signage
- Promotional and event signage
- Advertisements
- Super-sized menus

Printing needs met:

- Short- and long-term indoor signage
- Short print runs
- Seasonal change of message (monthly, weekly, daily)
- Personalization and regionalization of message
- Ease of use
- Flexibility of output – different media types and sizes
- Fast turnaround and quick ROI

In-store signage

Tailor your message to customers in each and every store with fresh, relevant large-format promos and displays delivered on demand. HP Designjet printers—for signage that speaks to customers in a big way.

Recommended hardware:

HP Designjet Z6800 Photo Production Printer, HP Designjet Z6200 Photo Production Printer, HP Designjet Z5400 PostScript® ePrinter, HP Designjet T7200 Production Printer, HP Designjet T1500 ePrinter, HP Designjet T920 ePrinter, HP Designjet T795 ePrinter, HP Designjet T520 ePrinter, HP Designjet HD Pro Scanner

Customer profile:

- Associations
- Schools
- Colleges and universities
- Youth groups
- Special needs

Printing applications:

- Banners
- Signage
- Decoration
- Vocational (arts) presentations
- Presentations
- Weekly, monthly, and yearly planners
- Posters and displays
- Design competitions
- Portfolio work
- Educational support materials

Printing needs met:

- Intuitive and easy to use
- Web connected
- Compact
- Affordable
- Easy, cost-effective maintenance
- Short print runs
- Seasonal change of message (monthly, weekly, daily)
- Cross-platform compatibility
- Low investment
- Time and cost savings

Education

Growing minds think big. Encourage learning with large-format signs used for teaching, everyday communications, and more. HP Designjet printers—helping students make the grade.

Recommended hardware:

HP Designjet Z6200 Photo Production Printer, HP Designjet Z5400 PostScript® ePrinter, HP Designjet T2500 eMultifunction Printer, HP Designjet T1500 ePrinter, HP Designjet T920 ePrinter, HP Designjet T790 ePrinter, HP Designjet T520 ePrinter, HP Designjet T120 ePrinter, HP Designjet SD Pro Scanner

HP Designjet ePrint & Share¹

Experience cloud printing from virtually anywhere—a conference room, the job site, or even home—using HP Designjet ePrint & Share. This free web service makes it easy to access, view, and print large-format documents, using your tablet, smartphone, laptop, or even your ePrinter's touchscreen from virtually anywhere.¹

- Automatically save a copy of your print in your online print history so it's easy to retrace the progress of your work
- Access, view, and reprint files from your online print history
- Email projects to your ePrinter and print
- Conveniently share files stored in your online print history with an automatically generated hyperlink
- Use your email to send print-ready files to print on your HP Designjet ePrinter
- Access multiple FTP sites in one place, so it's easy to view and print all your files
- Scan and share files through email from your ePrinter's touchscreen
- Help safeguard your projects safeguarded with trusted HP security features

For more information,
visit hp.com/go/eprintandshare

Start printing your large-format documents from virtually anywhere; visit hp.com/go/eprintandshare and download the mobile app from the App Store and Google Play.

HP Designjet Universal Print Driver

Provide IT teams with greater control and effectiveness, reduce printer-related costs, and improve IT and end-user productivity with the HP Designjet Universal Print Driver (UPD). This intelligent single-driver solution radically simplifies printer deployment and management, saving time and freeing IT to focus on innovation. HP Designjet UPD includes two drivers—HP-GL/2 and PostScript—and supports a broad range of HP Designjet printers.²⁶

Simplify printing and management

- Reduce much of the time and hassle associated with installing, updating, and testing multiple drivers

Reduce fleet management costs

- Reduce costs associated with traditional print driver installation, updates, and testing
- Save money by reducing the amount of time IT must spend on printer integration, management, and maintenance
- Cut down on help desk-related costs with a simplified single driver solution

Focus IT efforts on innovation

- Keep your system up-to-date
- Transition IT resources from integration to innovation

Empower IT teams by dramatically reducing the number of drivers they must manage. Give them the tools they need to improve efficiency and significantly cut costs. Simplify printing for end users and more effectively manage your overall fleet today.

HP Designjet accounting tool

Build efficient accounting, facility management, and onsite services with HP certified accounting solutions for HP Designjet printers. Take advantage of advanced accounting features, remotely track ink and media use to help monitor costs on a print-by-print basis, and view customer accounts quickly and easily. Printers can automatically send usage reports via email that you can manage through a free Microsoft® Excel template provided by HP. You no longer have to contact customers or visit their sites to obtain the information needed for precise invoicing.

HP technology leadership

Original HP Vivid Photo Inks²⁷

Create impressive long-lasting images in color and black-and-white with rich optical density and smooth transitions using **HP Vivid Photo Inks**. Print on many substrates to deliver a wide range of jobs such as posters, canvas prints, and POP signs. HP Designjet printheads are designed together with HP Vivid Photo Inks to provide precise, accurate placement of inks, smaller drops, and high speed.

Using **HP chromatic red ink**, your HP Designjet printing system provides the broad color gamut needed to produce vibrant color and deep, rich blacks and to achieve true photo-realistic image quality.

High **uniform gloss** provides a professional finish. With a wide range of blacks and grays with smooth, subtle transitions, true gray neutrality, and rich black density, you can produce remarkable black-and-white prints. And these prints provide lasting results with exceptional print permanence indoors in-window, and away from direct sun.¹⁹

Outstanding speed²⁷

HP Double Swath Technology provides breakthrough speed and performance. The HP Designjet Z6200 and the HP Designjet Z6800 Photo Production Printers include two sets of four HP 771 Designjet Printheads, and the HP Designjet Z6600 Production Printer includes two sets of three HP 771 and HP 773 Designjet Printheads creating a wide print swath—up to 1.67 inches / 42.5 mm and a high firing frequency to deliver prints with amazing speed.

Eight bi-color printheads for the HP Designjet Z6200 Photo Production Printer, six bi-color printheads for the HP Designjet Z6600 Production Printer and eight bi-color printheads for the HP Designjet Z6800 Photo Production Printer feature 1,056 nozzles per color, 1,200 nozzles per inch, and small drop volumes for top photo quality.

The **HP Optical Media Advance Sensor (OMAS)** allows you to print at top speeds and still get great output results. This breakthrough technology improves paper-advance control and accuracy, so the printer can print at higher speeds across multiple environmental conditions without impairing image quality.

Amazing color²⁷

The **HP Embedded Spectrophotometer**, with i1 Color Technology from X-Rite, is mounted on the printer carriage for accurate printer calibration measurements that deliver print-to-print and printer-to-printer color consistency and accuracy. It revolutionizes professional color workflows by enabling the creation of media profiles.

High productivity

The **HP Easy Printer Care Tool** lets you easily navigate through color-management, printing, and job management workflows; and the HP Color Center provides easy-to-use, step-by-step instructions on how to add new media and calibrate the printer.

HP Instant Printing PRO allows you to quickly preview, crop, and print in large format using one simple tool, providing a quick and easy way for reprographic and copy shops to print in large format. You can easily manage your files from one single application. HP Instant Printing PRO enables true print confidence. Avoid printing on the wrong-sized media with a realistic print preview.

Certified RIPs

Our RIP certification program defines a comprehensive set of compatibility criteria aligned to the highest performance standards and the unique capabilities of HP Designjet printers. Only third-party companies that have demonstrated conformance with these criteria are awarded HP Designjet certified status.

HP has certified a number of third-party Raster Image Processors, enabling additional control over elements such as color management, ICC profile management, tiling and nesting, support of multiple printers, and optimizing PANTONE and spot color.

To view RIP compatibility, please visit

hp.com/go/DesignjetRIPs

Exceptional image quality on a wide range of applications

Line drawings (color and black-and-white)

Print anything from simple CAD drawings to complex color documents with high-speed and outstanding image quality. Bring your vision to life with drawings full of fine detail, enabled by precise line accuracy.

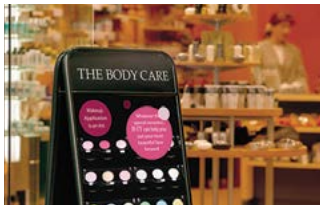

Maps and orthophotos

Communicate clearly with excellent image and line quality on all your prints from drawings to satellite and aerial photos, maps, and more.

Exhibition and event graphics

Grab attention at exhibitions and events with eye-catching top-quality graphics. Print on a variety of applications, from roll-up banners and pop-up banners to backlit signs and posters with outstanding print quality.

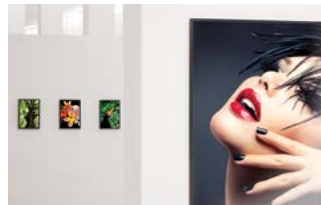

Retail POP/POS

Create appealing advertising posters, displays, window graphics, and backlits that can influence shoppers' decisions. High-quality printing on a wide variety of media can help you gain a competitive edge.

Renderings, posters, and presentations

Print large-format drawings, schematics, renders, and presentations with great ease, speed, clear and vibrant quality, and low running costs.

Professional photography and digital fine art

Produce dazzling fine art reproductions for galleries and artists with high-quality digital printing. Long lifespan and fade resistance keep prints in top viewing condition on a range of printing materials from canvas to high-end professional photo and fine art papers.

HP Designjet SmartStream

The most productive technical printing software designed for highly demanding environments that offers complete PDF management, creates accurate and error-free printouts, and reduces preparation time by up to 50% on complex jobs.¹⁴

True PDF management to boost productivity

Rely on true and correct PDF management. Increase productivity and efficiency with the high-speed rendering of complex PDF files, achieve consistently accurate and reliable results, and address potential problems before they arise.

Cut job preparation time by up to half¹⁴

Reduce preparation time by up to 50% on multipage jobs,¹⁴ and manage your workflow from a single-screen view. Manage complex jobs with a user-friendly interface. Prepare and send jobs to all connected HP Designjet production printers in your fleet.

Gain total control of your technical printing workflow

Fully control your printing workflow and achieve consistent, accurate results with **HP Crystal Preview Technology**. Rely on continuous assistance from job preparation to printing, and easily integrate production accessories to keep business moving.

HP Designjet SmartStream offers true PDF management, providing reliable reproduction of your PDF files thanks to the latest native **Adobe PDF Print Engine 3.**²⁴

HP Designjet SmartStream eliminates the need to convert PDF files into TIFF files and reduces the time operators spend solving PDF issues, achieving a higher speed of rendering, even for the most complex PDFs.

The Adobe PDF Print Engine 3:²⁴

- Is built on a modern, modular architecture that maximizes system resources and rendering efficiency
- Provides full support for the PDF imaging model, including live transparency, complex vector work, mixed color spaces, and 16-bit color conversions
- Leverages the strengths of industry standards such as ICC (color profiles), JDF (job tickets), and PDF/X to enable superior production management and color fidelity
- Reduces the trade-offs between reliability and flexibility, which means fewer jobs sent back for changes
- Uses the same core imaging technologies as industry-leading Adobe applications, such as Adobe Photoshop, Illustrator, and Acrobat resulting in a high degree of predictability when using these applications

“Adobe welcomes the HP Designjet SmartStream solution as a major step forward for HP customers who need to manage their large-format production workflows. HP Designjet SmartStream’s true PDF management harnesses all the strengths of PDF, the industry’s most robust imaging model, in an end-to-end PDF workflow. At its core is the Adobe PDF Print Engine 3,²⁴ our market-leading rendering technology. We are confident that HP customers who deploy HP Designjet SmartStream can quickly capitalize on the benefits: more streamlined workflows, greater output speeds, and a high degree of predictability for even the most complex jobs.”

– Raman Nagpal, Senior Director,
Print and Scan Business at Adobe

POWERED BY

Adobe PDF Print Engine

Why PostScript?

Adobe PostScript 3™—the next generation of Adobe PostScript printing

Adobe PostScript is the technology that lets you print any document—text, graphics, images, and color—from any computing platform to any supported device, at the very highest quality possible.

Quality

Optimized quality for PANTONE color emulation

- The PostScript driver automatically emulates PANTONE colors to look as similar as the originals on a given printer/media combination

Performance

No more errors printing complex PDFs with different layers

- Correct processing of PDF commands from line drawings and maps, to high-resolution imagery and graphics
- Print correctly all Encapsulated PS images (.eps), especially used on Mac computers

Efficiency

No need to open any application or driver to print a PDF file

- Ability to queue and print PDF files without ever opening the file (via the embedded web server, HP Designjet ePrint & Share, or USB drive plugged directly into your HP Designjet ePrinter)

Why HP-GL/2?

HP-GL/2 is the standardized version of the Hewlett-Packard Graphics Language. It is designed to provide a set of consistent functions across a wide range of peripheral devices, both plotters and printers. It is designed to reduce programming effort and the future compatibility of your programs, while allowing great flexibility in creating images.

Both HP-GL/2 and its predecessor HP-GL were conceived for the needs of the CAD world and are constantly updated. HP-GL/2 has been the plot standard for more than 9 years. HP-GL/2 is the successor of the old-fashioned and restricted HP-GL formats. HP-GL/2 processes expanded vector and raster information using very little memory space. HP-GL/2 is a 1:1 display of a plot; plot information is in HP-GL/2. Every CAD system can create HP-GL/2, as its goal is a technical drawing in the form of a plot. According to the distribution, any CAD system supports HP plotter drivers.

Standard: Any CAD system can create HP-GL/2, as the purpose of a CAD system is a technical drawing in the form of a plot. According to distribution any CAD system supports HP's plotter drivers.

Precise: This format was conceived primarily for CAD applications, and therefore it possesses the accurateness necessary for CAD.

Multitalented: HP-GL/2 processes vector information just as raster information. Within HP-GL/2, the format HP-RTL is integrated for raster interpretation. The definition of extended vector features is also possible, such as influencing line-end and line-join, etc.

Structured: In HP-GL/2, the pen assignments are saved clearly, and arranged according to the plot pen scheme. This is well known by any CAD user and offers a very good structure for clarity of the drawing. This clarity and standard naming makes the exchange of information easy.

Very little memory space: In this format, the vector and raster information are saved in an extremely compressed form. None of the usual hybrid formats (meta files, which process vectors as well as bitmaps) offer a similarly efficient compression.

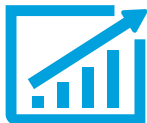

Original HP inks

Printing problems put delivery at risk and can cost you time, money, and clients. Original HP inks are designed together with HP Designjet printers to get the job done right the first time, every time.

Lower costs

Original HP inks are designed together with your HP Designjet printer to produce consistent results. With reliable performance, you can minimize waste and downtime to lower your total cost of printing.

Protect your investment

Ink properties are critical to every part of the printing system. Non-HP inks can cause poor-quality prints that can waste time and money, and can increase printer downtime and maintenance.

Print responsibly

From our global recycling initiatives, to our specially engineered cartridges made of recycled plastic and water-based inks, Original HP inks are designed with the environment in mind.

HP large format printing materials

Original HP large format printing materials

See consistently outstanding image quality. With a wide range to choose from, you can always find the right printing material for the job, or almost any printing application. HP Premium printing materials are designed to provide best-in-class performance on key attributes like display permanence. Or for lower-cost options, consider HP Everyday or HP Universal printing materials, providing the ideal combination of quality and cost for everyday printing.

No matter which one you choose, HP printing materials are designed to work with the complete system to deliver the results you need and to provide uncompromising quality, consistency, performance, durability, and value every time.

To learn more visit
HPLFMedia.com

HP Designjet printers and the environment

Designed with the environment in mind

Take advantage of free, convenient return and recycling of most Original HP Designjet ink cartridges and printheads.²⁸ HP's "closed loop" recycling process uses recycled plastic from HP ink cartridges to create new Original HP Designjet ink cartridges.²⁹

HP Designjet printers and energy efficiency

Energy-efficient printers can reduce environmental impact and reduce costs. They also produce less heat and reduce cooling loads, which can make your work environment more pleasant. Most HP Designjet printers are ENERGY STAR certified, which assures that they meet strict energy efficiency guidelines without sacrificing performance—or your productivity.

ENERGY STAR is a joint program of the U.S. Environmental Protection Agency (EPA) and the U.S. Department of Energy. As ENERGY STAR standards evolve, HP is committed to ensuring that HP Designjet printers continue to meet or exceed the standards.

HP Designjet Support Services

Print with predictability so you can work with confidence

Enjoy:

- Professional installation and setup of your HP Designjet large-format printer
- Up to five years service and support with HP's Next Business Day Onsite Repair
- No support cost surprises
- Hassle-free printing of your projects at the quality you need, when you need it
- Lower total cost of ownership (TCO) of your HP Designjet printer

Maximize printer uptime and gain peace of mind

Secure the budget predictability you need by extending your warranty coverage. All support costs are covered for the full extended period—which can mean significant savings. For example, when purchasing a 3-year service and support package for the HP Designjet T520 ePrinter, you can protect your business from unplanned expenses, while saving up to 15% of the total support costs.

Choose the services that match your needs

HP Designjet Support Services include the following HP Care Pack Services:

- **Installation Service with Network**

Setup—Onsite installation and network setup of your HP Designjet printer by an HP-authorized service technician. Includes basic printer orientation for your organization's key users.

- **Next Business Day Onsite Repair**

Extend the HP warranty for 2, 3, 4, and 5 years. An HP-authorized service technician will make the best effort to arrive at your site the next business day after the case is dispatched. Includes parts, material, and labor.

- **Post-warranty Services**—Provides continued protection after your standard HP warranty or HP Care Pack Service expires. Offered in one-year and two-year increments.

- **Preventive Maintenance Service**

Onsite maintenance by an HP-authorized technician. May include: cleaning printer parts, inspection of cables and connections, recommendations for updates, and replacement of parts (parts costs and replacement not included).

The bottom line: why buy HP Support Services?

- Reassurance on your investment
- Predictable printing
- No unexpected support costs
- Quick time-to-repair
- Best-in-class cost of ownership

HP Workstations

Boost productivity with HP Designjet printers and HP Workstations

HP Workstations and HP Designjet ePrinters work together to deliver one complete solution for Architecture, Engineering, and Construction. Benefit from high-performance HP computing with expandable memory capacities and superior printing solutions with mobile connectivity that accelerates collaboration. This is technology built to power your business.

Push the edge of your industry

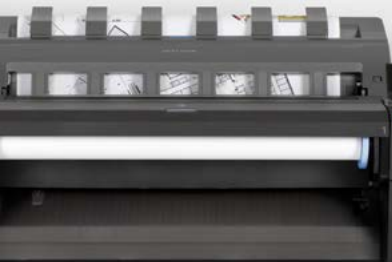

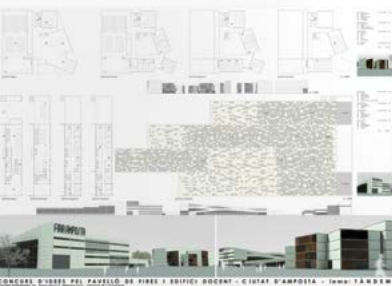

HP Workstations are designed to meet the demands of professionals who work with large and complex datasets, intricate 3D models, need multiple displays, or simply need a stable computing platform. HP Workstations set the standard for innovation, performance, and reliability, in the office and on the road. HP Workstations are powered by Intel™ Core™ processors like the Intel® Core™i7 vPro™ processor.

Meeting the demands of the most demanding

HP's partners work with some of the most complex information challenges out there. You can find our workstations exceeding demands and fueling innovation in the fields of architecture, engineering, education, financial services, government, life sciences, media, entertainment, and more around the globe.

Designed for brains and brawn

Every HP Workstation offers the ideal mix of form and function to deliver the highest level of performance and reliability that you can expect.

Color is the

new black

Meet all your black-and-white and color needs with the HP Designjet T3500 Production eMFP. The most productive large-format MFP¹⁵ offers advanced copy and scan features and low-cost, unattended operation. Built for rigorous IT demands and top security.

Footnotes

1. Requires an HP Designjet ePrint & Share account, Internet connection to the printer, and connected Internet-capable device. When using the HP Designjet ePrint & Share mobile app, a compatible Apple® iOS or Android™ device and Internet connection are required. Data or connection charges may apply. Print times may vary. 5 GB of temporary storage per account. For more information, visit hp.com/go/eprintandshare.
2. BMG trademark license code FSC®-C115319, see fsc.org. HP trademark license code FSC®-C017543, see fsc.org. BMG trademark license code PEFC™/29-31-261, see pefc.org. HP trademark license code PEFC™/29-31-198, see pefc.org. Not all FSC®- or PEFC™- certified products are available in all regions. For information about HP large format printing materials, please visit HPLMedia.com.
3. Can be recycled through commonly available recycling programs.
4. Papers can be recycled according to region specific practices. In Europe recyclable in consumer collection systems that accept liquid packaging.
5. Availability of service packages and specifications may vary by product and country. For more information visit hp.com/go/designjetsupport.
6. Mechanical printing time. Printed in Fast mode, using HP Bright White Inkjet Paper (Bond) and Original HP inks.
7. Mechanical printing time. Printed in Fast mode on plain paper with Original HP inks.
8. Only certified for the following workflows: WJA, FTP printing, IPsec.
9. Mechanical printing time. Printed in Fast mode on plain paper with Original HP inks.
10. HP Large Format Media take-back program availability varies. Recycling programs may not exist in your area. See HPLMedia.com/hp/ecosolutions for details.
11. Mechanical printing time with Original HP inks. Measured on a 44-in model.
12. Based on internal HP testing, the HP Designjet Z3200 Photo Printer series utilizes at least 30% less ink during routine maintenance operations versus select printers from other vendors.
13. The 12-ink HP Designjet Z3200 Photo Printer is the most advanced printer compared with other HP Z-series printers.
14. Conclusion based on an HP internal test measuring the time required to extract pages from a 50-page document and print them using several printers compared with using equivalent software programs.
15. Compared with large-format color MFPs under \$25,000 USD. Based on the fastest-rated color speeds as published by manufacturers as of January 2014. Test methods vary.
16. Compared with large-format Low Volume LED MFPs with print speeds of up to 7 Arch D pages per minute.
17. Compared with large-format inkjet printers under \$25,000 USD for graphic applications. Based on the fastest rated color speeds as published by manufacturers as of October 2013. Test methods vary.
18. Mechanical printing time. Printed in Fast mode with Economode on, using HP Bright White Inkjet Paper (Bond) and Original HP inks. Measured on a 60-in printer.
19. Display permanence rating for interior displays/away from direct sunlight by HP Image Permanence Lab, and by Wilhelm Imaging Research, Inc. on a range of HP media. For more information, see HPLMedia.com/hp/printpermanence.
20. Embedded in this HP Designjet Printer is a spectrophotometer with i1 color technology from X-Rite. Close collaboration between HP and X-Rite ensures a reliable solution that's been thoroughly tested to meet customer demands for ease, quality, and dependability.
21. Production Printer uses 30% less ink than the HP Designjet Z6100 Printer (demonstrated by internal HP tests on glossy media in production mode).
22. Compared to large-format inkjet printers under \$25,000 for graphic applications. Based on the fastest rated color speeds as published by manufacturers as of January 2010. Test methods vary.
23. Mechanical printing time. Printed in Fast mode with Economode using HP Bright White Inkjet Paper (Bond) and Original HP inks.
24. Adobe PDF Print Engine 3 is the next generation rendering platform, optimized for end-to-end PDF workflows. Adobe PDF Print Engine 3 combines performance optimizations with a new scalability framework to power high-speed digital

presses, large-format printers, and CTP platesetters. Adobe PDF Print Engine 3 is the fastest rendering platform for reliable reproduction of complex, graphically rich content. To learn more, visit: adobe.com/products/pdfprintengine.html.

- 25. Monochrome scanning: A1/D image with black text graphics at 200 dpi; color scanning: A1/D fully-inked color image at 200 dpi, 24-bit RGB.
- 26. Supported HP Designjet printers include HP Designjet T120 ePrinter, HP Designjet T520 ePrinter series, HP Designjet T790 ePrinter series, HP Designjet T795 ePrinter, HP Designjet T920 ePrinter series, HP Designjet T1300 PostScript® ePrinter, HP Designjet T1500 ePrinter series, HP Designjet T2300 eMultifunction Printer, HP Designjet T2500 eMultifunction Printer series, HP Designjet T3500 Production eMFP, HP Designjet T7100 Printer, HP Designjet T7200 Production Printer (in Europe, the Middle East, and Africa, the HP Designjet T7200 Production Printer will be available in fall 2014), HP Designjet Z5400 PostScript® ePrinter, HP Designjet Z6200 Photo Production Printer, HP Designjet Z6600 Production Printer, and the HP Designjet Z6800 Photo Production Printer.
- 27. Features and availability vary by printer.
- 28. Visit hp.com/recycle to see how to participate and for HP Planet Partners program features and availability;

program may not be available in your area. Where this program is not available, consult the Material Safety Data Sheet (MSDS) available at hp.com/go/ecodata to determine appropriate disposal.

- 29. For HP ink cartridges that use recycled materials, up to 70% of the cartridge is made from recycled content. Percentage of recycled material is based on empty weight. HP uses recycled plastic from the HP "closed loop" ink cartridge recycling process when supplies are available. Recycled plastic is also sourced from other recycle streams.
