Why upgrade from....

The HP DesignJet 500/510 Printer series to the HP DesignJet T730 Printer or HP DesignJet T830 Multifunction Printer

A smart investment for small businesses

Improved performance and security

- More than 3 times faster¹—(A1/D prints in 28 seconds)
- Larger cartridge sizes—up to 300-ml Original HP ink cartridges
- Safeguard information with security protocols like IPSec
- Improved print resolution—up to 2400 x 1200 dpi
- Reduce processing time and print complex files with more memory—1 GB hard disc

Better design and quality:

- Front panel touchscreen works like a smartphone—intuitive user interface
- Automatic sheet feeder/tray—print at half scale and cut waste by 50%²
- Robust design for offices and job sites, reinforced stand, single-piece bin frame, strong textile bin

Easy printing from smartphone or tablet³

- Easy connectivity with Wi-Fi Direct—no router, no problem, the printer creates its own Wi-Fi network
- Integrates easily with your other office devices—iOS and AndroidTM compatibility with HP Mobile Printing³
- Print from your mobile device with the HP AiO Printer Remote app,⁵ enabled by HP Mobile Printing
- Support for Windows 10 and MacOS X 10.10

Upgrade team collaboration with the HP DesignJet T830 Multifunction Printer

Mobile print, scan, copy, and share

- An MFP at a size comparable to a printer
- Make copies with upscale and downscale, from A4/A to A0/E
- Scan to archive, or scan to share over email or in cloud repositories
- User your tablet device as an extended front panel for advanced scanning features

The HP DesignJet 500/510/800 Printer series to the HP DesignJet T930 and T1530 Printer series

Greater productivity and security

Improved quality and performance

- Up to 4.2 times faster than DesignJet 500—A1/D-size prints in 21 seconds
- Improved print resolution—up to 2400 x 1200 dpi
- Higher unattended printing—up to 300-ml Original HP ink cartridges
- Better line accuracy with 6 inks—including Original HP gray and photo black inks
- Accelerated processing time—up to 40 times more virtual memory

Greater productivity with easy, efficient user experience

- Integrated output stacking tray delivers flat, collated prints
- Increased productivity with true automatic front loading
- Save space in your office with this compact 36-inch printer
- Manage your jobs with an intuitive touchscreen that works like a smartphone

Easy to manage for IT, and improved security

- Safeguard information with security protocols like IPSec, PIN printing, and optional security solutions including Secure Disc Erase, Encrypted HD⁶
- 802.1x or SNMPv3 enabled and Front Panel Lock Settings to improve security
- Print directly to your printer from a smartphone, tablet, or USB drive³
- Improve workgroup efficiency using the job center—manage queues, track costs, take control
- Integrates easily with your other office devices—iOS and AndroidTM compatibility with HP Mobile Printing³

The HP DesignJet 1050 Printer series to the HP DesignJet T1530 Printer series

Leading⁷ on customer experience and high performance

Improved performance and quality

- Up to 2.6 times faster—A1/D-size prints in 21 seconds
- Dark blacks, smooth grays with 6 inks—including gray and photo black Original HP inks
- Improved print quality and better line accuracy—1.5 times more colors, 2 times better line accuracy, 2 times better print resolution (2400 x 1200 dpi)—for high-quality results
- Intuitive touchscreen that works like a smartphone
- Accelerated processing time—up to 40 times more virtual memory

Increased efficiency and security

- Save time—2 rolls with smart switching, automatic skew correction
- Monitor media rolls, view printer status, and track jobs during printing through the job center
- Print 4 times more pages before replacing a roll
- Enable highly unattended printing—two 300-ft (91.4-m) rolls, Original HP ink cartridges up to 300 ml
- Safeguard information with security protocols like IPSec, 802.1x, SNMPv3, PIN printing, and other options⁶
- Print complex files fast—500 GB hard disk, parallel processing power
- Plug and print directly from your USB drive (TIFF, JPEG, and PDFs) or connect your laptop and print

Greater productivity with easy, efficient user experience

- Web-connected printer
- Automatic firmware upgrades—always with the latest functionalities
- Integrates easily with other office devices—iOS and AndroidTM compatibility with HP Mobile Printing³
- Integrated 50-page output stacking tray—delivers flat, collated prints
- Increased productivity with true automatic front loading
- Save space in your office with this compact 36-inch printer

24 inch

36 inch

42 and 44 inch

1. Compared to previous HP models.
2. Printing on sheets eliminates the extra work and cutting waste of printing on performance equivalent roll-based printers in the market as of September, 2015. For example, printing at half scale (13.5 inches) on a typical (36-inch) roll results in over 50% paper waste and additional labor to cut.
3. Local printing requires mobile device and printer to be on the same network (usually Wi-Fi access points bridge wireless to wired connections) or have a direct wireless connection. Wireless performance is dependent on physical environment and distance from access point. Wireless operations are compatible with 2.4 GHz operations only. Remote printing requires an Internet connection to an HP web connected printer. Wireless broadband use requires separately purchased service contract for mobile devices. Check with service provider for coverage and availability in your area.

See: hp.com/go/designjetmobility for more details.

4. The HP Print Service Plugin app is available for Android™ mobile devices running Android™ v.4.4 or later. The app is free from Google Play.
5. The HP All-in-One Printer Remote mobile app is available for Apple® iPad, iPhone, and iPod Touch running iOS v7.0 or later and for Android™ mobile devices running Android™ v4.4 or later. The HP All-in-One Printer Remote mobile app is available for free from the Apple® App Store for Apple® mobile devices and from the Google Play Store for Android™ mobile devices.
6. Secure Disk Erase (available for all models) and Encrypted HD (available only in specific models).
7. Most efficient user experience, highest productivity.
