OVERVIEW FACT SHEET

The new range of high speed, 4 colour, large format SureColor SC-T series printers offer outstanding print quality, productivity and reliability in even the most demanding environments. Ideal for retail POS, corporate graphics, print for pay, engineering and architectural CAD/GIS applications, the SureColor SC-T range is also compact and easy to use.

The new roll fed SureColor SC-T series printers are highly modular and allows users to create their own configuration based on a choice of 24, 36 or 44 inch wide base models. Building on the success of the previous SureColor SC-T printers the new SC-T3200, SC-T5200 and SC-T7200 models introduce a range of enhancements such as a full colour scanner, dual media roll, Postscript 3 and 320GB HDD designed to maximise performance when printing and scanning even the largest jobs.

What's new?

– PrecisionCore™ TFP printhead
  - A permanent print head so no additional replacement and set-up costs.
  - Delivers precise, repeatable and long-life performance
  - Unbelievably fast speeds
  - High-quality prints

– Double roll
  - Auto paper loading and auto switching from the front between rolls
  - Maximum productivity and the flexibility to switch quickly between different media and minimising the footprint required.

– 36-inch-wide colour scanner
  - Digitise large-format hard copies
  - Scan to enlarge and print
  - Scan-to-file[1]
  - Scan-to-email[1]
  - Scan-to-share with other SureColor SC-Tx200 MFP solutions[1]

– Optional 320GB Hard Disk Drive (HDD) which reduces print times in a busy environment

– Secure networking

– PostScript® 3™ support[3] with Dual Core 1.6Ghz CPUs (optional)

– New built-in stacker on single-roll models to aid unattended operation

PRECISION**CORE**™

EPSON ULTRACHROME XD INK

EPSON®
EXCEED YOUR VISION

Feature set

- Improved productivity: produces an A1 print on plain paper in 28 seconds (draft mode)
- Spindle-less, easy front media loading
- 110ml, 350ml, 700ml ink cartridge options
- 700ml ink cartridge and large maintenance tanks, perfect for unattended print runs
- Media of up to 1.5mm thick supported, allowing you to print directly on to rigid board for presentation purposes or on to mock-up materials
- Minimum line width of 0.02mm
- Line accuracy of +/- 0.1%
- Managed Print System (MPS) through remote monitoring*2
- Advanced web-based software for managing printer functions
- Accounting Tool for calculating costs
- Powerful PostScript (option) for uninterrupted processing of large files
- **NEW** 36-inch large format scanner (optional or bundle) offers stunning colour or monochrome copies
- **NEW** Scan an A1 print with crisp & sharp images due to the Realoid processor in less than 40 secs
- **NEW** 1GB of internal RAM
- **NEW** Flexible and secure networking 10BASE-T/100BASE-TX/1000BASE-T IPv6/IPsec
- **NEW** Optional 320GB HDD
- **NEW** Continuous stacker with horizontal position
- **NEW** Improved line quality for speed mode
- **NEW** Improved HP-GL/2 compatibility
- **NEW** Quiet cut mode

UltraChrome® XD Ink

- Epson pigment inks maximise colour consistancy and vibrancy
- Water-resistant, suitable for short-term outdoor use
- Smudge-resistant
- UV-resistant, ensures no fading on archived documents
- Enhanced durability and scratch-resistance
- Improved black density of circa 1.4 ODU
- More vibrant red for presentations or posters
- Finely tuned, precise dot placement achieves crisp and accurate line drawings
